**shell lake arts center**  
master teachers. magic setting.

The Shell Lake Arts Center is following the Wisconsin Department of Health & Safety guidelines for our 2021 Camp & Workshop season. Recommendations are continuously evolving, but as of now, we are planning to have in-person camp. The safety of our students, staff, and community remains our top priority, and we are monitoring the situation daily.

Some of the current procedures we are studying for possible implementation during the 2021 season include:

- Masks and instrument bell covers
- Temperature checks when students arrive on campus
- Schedule changes to allow for increased sanitization each day
- Utilizing outdoor spaces as much as possible
- Having a closed campus
- Limited enrollment

Decisions regarding how our upcoming camp season will take place is an ongoing process and we will communicate all changes. Thank you for your continued support and we hope to see everyone this summer!
